

Built so your boat won't sink... so you can join us to drink

## About Us

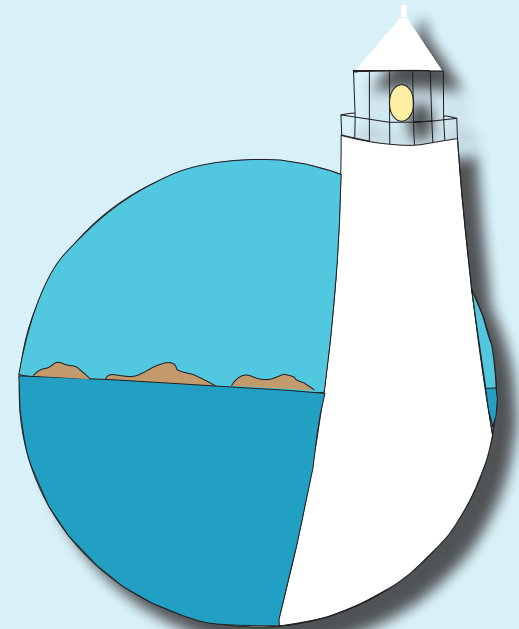

For a long time it has been my dream to open a beach-front brewery, and my obsession with lighthouses made this location the perfect fit. Our brewery is a small family-owned business in a beloved old lighthouse on the water-front of Santa Barbara addressed on our famous street, Cabrillo Boulevard.

Our draft beers are our specialty, especially our different blondes and light beers to mirror our beach atmosphere of the brewery, and of course we brew our own IPAs and Lagers as well. We make it our duty to serve a wide variety of brewskies so that everyone who walks through our door can find something they'll enjoy. With 50 on-tap brews, no other brewery has the range of beers or the beach-front view that we do.

The Old Lighthouse Brewing Co. is a hip place where locals go and tourists destination. It is our pleasure to share our house drafts with everyone who walks through our door.

## The Old Lighthouse Brewing Company

Established and brewing since 2021

Santa Barbara, CA

## Meet Our Signature Brewskies

**O**ur beloved lighthouse was built in 1804 and remained in operation until 1870. Since its retirement, it has been a beloved building within our Santa Barbara community. Our business makes it our utmost duty to treat this building with respect and change as little as possible to its exterior so that it keeps its original beauty for the rest of time.
